Category:			
Target version:			
Description			
Our jobnets running everyday by scheduling. But every wednesday on every week, jobnet start time delay a few minutes (about 2min). For eg, my_jobnet schedule_time(06:00AM) start time(06:02AM).

Thank you for using Job Arranger.
I'm sorry for being late.
What's your Job Arranger version?

Best Regards,
